PACKAGING

RE:CLOSE TAPE™

High impact promotional carrier and reclosure device

Reclosable packs offer compelling benefits as they enable suppliers to maintain a branded presence in consumers' homes after the product has been bought and opened

- Easy to lift with large integrated fingerlift
- Adhesive designed to stick securely again and again
- World-class printing technologies deliver message or promotion
- Simply applied to existing lines
- Perfect portion control with product remaining in branded pack

Simply applied to your existing lines, RE:CLOSE TAPE™ means your product remains in its own branded pack, delivering freshness to your consumers. It's easy to open – with a finger lift along the tape – and easy to RE:CLOSE, with an adhesive designed to stick securely again and again.

Essentra RE:CLOSE TAPE™ is available now in two liner-free, finger-lift options – right-hand side or two sided – for easy opening. World-class printing technology delivers your message or promotion to ensure your brand stays fresh in the consumers mind too.

For longer-lasting freshness, powerful promotions, and perfect portion control, RE:CLOSE TAPE™ brings a fresh approach to your packaging.
